

25-Mile East Loop - Highway 287 Turn

Here's a 25-miler with good shoulders almost the entire way. The ride east into Lafayette is pleasant with a few hills. Then, when turning onto Highway 287, exercise caution despite the wide shoulder. Things quiet down once you make the turn onto Lookout Road. A few steep hills (and usually a headwind out of the west) makes the 1-1/2 mile climb between 95th and 79th a rigorous one, rewarded with a nice downhill to 75th Street. You can easily hit 40+ mph on that one. 75th back to Baseline and the Club is a smooth, relaxed return with a few rollers.
